

Who Can Take A Course?

- Jones Institute courses were originally designed for Physical Therapists and Physical Therapist Assistants however, we welcome all health care professionals who hold an active state issued license to treat patients.
- Jones Institute courses qualify as continuing educational credit (CEU's) for all types of therapists. We have many OT's, LMT's, CHT's etc. that take our courses and receive their CE credit. *For a final decision, please contact your licensing board to be sure.*
- Although, our courses do not generally qualify for any continuing medical education (CME's) for doctors we do have many doctors that find our courses beneficial to their practice i.e. DO's, DC's, MD's, ND's, etc.
- Jones Institute advanced courses do have pre-requisites. See the course information sheets posted on the homepage for specifics.

Please contact us at 760-942-0647 if you have any further questions about eligibility.

Thank You
